DECEMBER 2020

## Dear Friends

2020 will be remembered as one of the most challenging years in our human history. Grief and suffering surround us all, which encourages us to adopt new values of compassion and empathy.

Historically, we survived the most challenging of adversities, with the most horrific casualties. Our historical drive to not only prevail but to excel is where we find our strength that we will overcome the coronavirus pandemic.

The best gift we could have asked for was vaccines and I have no doubt, the world will be a better place.

**Clayton Samsodien**  
Group CEO

## THANK YOU!

I am incredibly grateful for our partnership, your support, guidance and hard work. Together we established a new-generation financial services consulting group in the midst of the pandemic.

My Team and I cannot help but reflect on what our partnership achieved together. Although we may know each other for many years, I believe our relationship and resolve to succeed is stronger than ever before. Thank you for the faith you bestowed upon us!

On behalf of the Phoenix Family, I want to wish you and your family continued health, happiness success and prosperity in the coming years.

*We pray and wish that the festive season brings only happiness, cheer, blessings and enjoyment to you and your family. Please convey our thanks and appreciation to your family their support and sacrifices.*
